OCTOBER 4 - 5th, 2017 - CONVENTO S. MARIA DE PIANO - CALVELLO (PZ) IT

CALL FOR ABSTRACTS - PETROLEUM GEOLOGY STUDENT CONTEST

The 2nd edition of the **PETROLEUM GEOLOGY STUDENT CONTEST** will be held the October 4th and 5th 2017, in the beautiful town of Calvello (Potenza), in the heart of the woods of the Basilicata Region of Italy.

The workshop is aimed at offering the opportunity to eight PhD students and eight MSc students currently enrolled at the University, or who have just terminated their studies within the last year, to show the results of their research to an audience of academic and industrial geologists.

Original research works dealing with the several aspects of petroleum geology, such as geodynamics, regional geology, basin analysis, sequence stratigraphy, applied sedimentology, structural geology, seismic data acquisition, outcrop analogues, processing and interpretation, petrophysics, rock physics, reservoir modelling, fluid flow simulation, geochemistry, mineralogy, etc. are welcome.

In order to participate, PhD. and MSc students must submit an abstract not longer than 3,000 characters (besides title and author name) through the website: www.petroleumgeologystudentcontest.com. All abstracts will be published in a volume of the Abstract Book of the *ITALIAN GEOLOGICAL SOCIETY*. The deadline for abstract submission is **July 15th 2017**.

The eight selected PhD students will provide a 25 minute-long oral presentation, whereas the selected MSc students will deliver a poster presentation (700 x 1,000 mm).

The reunion will open with a **keynote lecture** presented by **Carlos Pirmez**, Chief Geologist at Shell Italia E&P.

Based upon the evaluation of the judging committee, the best PhD and MSc student presentations will be awarded with two grants of **5,000 Euro** and **2,000 Euro**, respectively, funded by Shell Italia E&P. All room & boarding expenses for the presenters will also be kindly offered by the sponsor. **Registration is free**. Further information will be available in a forthcoming circular, which will include details on logistics, accommodation and workshop agenda.

The whole geological community is invited to attend the workshop, looking forward a stimulating chance to appreciate the state of the art of the research in the Petroleum Geoscience field provided by young scientists.

**LOOKING FORWARD TO SEEING YOU IN CALVELLO,
FABRIZIO AGOSTA & SERGIO LONGHITANO**

SCIENTIFIC COMMITTEE

Mauro Agate - Università di Palermo
Andrea Bistacchi - Università di Milano Bicocca
Domenico Chiarella - Royal Holloway University, London
Sveva Corrado - Università di Roma 3
Nicola De Paola - University of Durham
Davide Iacopini - University of Aberdeen
Alessandro Incarbona - Università di Palermo
Rosanna Maniscalco - Università di Catania
Giovanni Mongelli - Università della Basilicata

SCIENTIFIC COMMITTEE

Francesco Muto - Università della Calabria
Mariano Parente - Università di Napoli Federico II
Marco Patacci - University of Leeds
Edoardo Perri - Università della Calabria
Davide Scrocca - IGAG CNR
Attilio Sulli - Università di Palermo
Emanuele Tondi - Università di Camerino
Marcello Tropeano - Università di Bari
Giovanna Rizzo - Università della Basilicata
Enzo Rizzo - CNR IMAA

JUDGING COMMITTEE

Elisabetta Erba - Presidente S.G.I.
Pierluigi Vecchia - Coord. Sez. Geologia degli Idrocarburi della S.G.I.
Massimo Mattei - Coord. Sez. Geologia Strutturale della S.G.I.
Marco Brandano - Coord. Sez. Geologia del Sedimentario della S.G.I.
Alessandro Amorosi - Università di Bologna
Stefano Mazzoli - Università di Napoli Federico II
Giacomo Prosser - Università della Basilicata
